Measuring International Financial Supervisory Transparency

Christopher Gandrud, Mark Copelovitch, and Mark Hallerberg

November 28, 2014

Why financial supervisory transparency?

Financial supervisory transparency has been **lauded** as promoting:

- financial system stability,
- democratic legitimacy for supervisors.

Why financial supervisory transparency?

Financial supervisory transparency has been lauded as promoting:

- financial system stability,
- democratic legitimacy for supervisors.

Promotion

Supervisory transparency has been **promoted** by international/supra-national institutions including the IMF, Basel Committee, and the European Union.

But...

We **lack reliable**, **cross-country**, and **cross-time** indicators of financial supervisory transparency to **test** these assertions.

Motivation 4 / !

Our objectives are to:

- ► **Develop** a reliable and valid indicator of supervisory transparency across countries and time.
 - Largely complete.
- ► Use this to **examine**:
 - why countries become more/less transparent
 - how, if at all supervisory transparency affects economic outcomes.

Our objectives are to:

- ► **Develop** a reliable and valid indicator of supervisory transparency across countries and time.
 - ▶ Largely complete.
- ► Use this to **examine**:
 - why countries become more/less transparent
 - how, if at all supervisory transparency affects economic outcomes.
